This report is prepared by geneticists and nutritionists at Mendel's using contemporary molecular genetics and nutrition databases published by government health authorities. A person with no genetic and health risk factors, who adheres to nutrition guides and healthy lifestyles everyday, should score 10/10 for every vitamin and mineral. We have prepared your personalized supplements to address only the most significant potential gaps found in this report.

Take one packet each day, or as directed by a physician. Please contact us at customer@mendelspeas.com if adjustment to your daily packet is required.

Keep Improving

As you make improvements in your lifestyle and adjust your habits, your supplements will change with you. Keep us updated by retaking your Lifestyle Test, and we'll update your formulation to always fit your body.
